

Mercedes me Charge

provided by Digital Charging Solutions GmbH

Price List Great Britain

Introduction

The Mercedes me Charge rates are governed by the maximum charging speed, for which a fast charging speed usually also implies higher costs.

Mercedes me Charge differentiates the following charging speeds:

AC – alternating current (normal charging)

DC – direct current (fast charging)

HPC – high power charging (ultra-fast charging)

The maximum charging power capacity of each charging station can be found on the Mercedes me Charge website and the Mercedes me app.

Charging stations, which are provided for free by a charging infrastructure operator, are basically also made available to Mercedes me Charge customers free of charge. You can conveniently filter for free charging stations on our map. Please note that the transaction units for charging in public areas may vary due to regulatory requirements in the individual European countries. A transaction is differentiated in terms of kWh, time (min.), or by charging event. All prices are individually based on charge point operators. A variable tariff applies with regard to the individual charging process. The prices depend on respective charge point operators. Please inform yourself about the valid prices in the Mercedes me app before you start charging. For charging abroad (= e-roaming), you will always pay the local sales rate without any additional fees.

All prices include VAT

You can also recharge for free using Mercedes me Charge at free charging stations.

Currently, Germany does not guarantee nationwide coverage with charging and billing solutions conforming to calibration law by charging station operators. In our service, we use data provided by charging station operators. In some cases this may lead to deviations in charging and billing amounts, among other things. Please get in touch if you have any questions.

*Up to 6 months for free. After which you will be charged a monthly fee of £7.85. You will be charged for any electricity costs incurred, even during your free period of membership.

1) Customers who have purchased a specific fully electric Mercedes-Benz as a new vehicle are exempt from the base fee for the first year for Mercedes me Charge L. Excluded from this promotion are the following vehicles: Mercedes-Benz eSprinter, Mercedes-Benz eVito and all of its derivatives. For your vehicle deviating charging fees at IONITY charging stations might apply – please contact your dealer for further information. The offer is only valid for the first contract and cannot be transferred to others. After one year the normal tariff conditions apply. The Mercedes-Benz promotion is automatically put into effect for one year when your charging contract is activated. In case you are eligible to receive this promotion, you will be automatically guided to Mercedes me Charge L during the registration.

2) The charging service contract runs for an indefinite period of time and can be terminated by the customer at any time from the reference date of the contract, with a notice period of no more than one month.

3) Customers who have purchased a plug-in hybrid Mercedes-Benz as a new vehicle are exempt from the base fee for the first year for Mercedes me Charge M. The offer is only valid for the first contract and cannot be transferred to others. After one year the normal tariff conditions apply. The Mercedes-Benz promotion is automatically put into effect for one year when your charging contract is activated. In case you are eligible to receive this promotion, you will be automatically guided to Mercedes me Charge M during the registration.

Charging event transaction

The invoicing of varying fees for charging is based on the appropriate tariff per minute (per commenced minute), per kWh or per charging event. The charging event starts if the vehicle is connected to the charging station and ends when it is disconnected. You can also recharge for free using the Mercedes me Charge service at free charging stations.

All rates incl. VAT, subject to changes and errors.
