## Price List Ireland

### Introduction

The Mercedes me Charge rates are governed by the maximum charging speed, for which a fast charging speed usually also implies higher costs.

Mercedes me Charge differentiates the following charging speeds:

AC charging stations up to a max. of 22 kW capacity

(AC – alternating current)

DC charging stations up to a max. of 50 kW capacity

(DC – direct current)

HPC charging stations up to a max. of 150 kW capacity

(HPC – high-power charging)

Charging stations, which are provided for free by a charging infrastructure operator, are basically also made available to Mercedes me Charge customers free of charge. You can conveniently filter for free charging stations on our map. Please note that the transaction units for charging in public areas may vary due to regulatory requirements in the individual European countries. A transaction is differentiated in terms of kWh, time (min.), or by charging event. All prices are individually based on charge point operators. A variable tariff applies with regard to the individual charging process. The prices depend on respective charge point operators. Please inform yourself about the valid prices in the Mercedes me app before you start charging. For charging abroad (= e-roaming), you will always pay the local sales rate without any additional fees.

All prices include VAT

You can also recharge for free using Mercedes me Charge at free charging stations.

Currently, Germany does not guarantee nationwide coverage with charging and billing solutions conforming to calibration law by charging station operators. In our service, we use data provided by charging station operators. In some cases this may lead to deviations in charging and billing amounts, among other things. Please get in touch if you have any questions.

1) The contract has an indefinite term and can be terminated by either party by giving one month's notice starting from the end of the current month.

## Charging event transaction

The invoicing of varying fees for charging is based on the appropriate tariff per minute (per commenced minute), per kWh or per charging event. The charging event starts if the vehicle is connected to the charging station and ends when it is disconnected. You can also recharge for free using the Mercedes me Charge service at free charging stations.

2021-11-01, all rates incl. VAT, subject to changes and errors.
